Mechanical Stimulation* Pain Relief From Hospital to Home

VibraCool Pro is the only wearable neuromodulation device using NIH-funded MECHANICAL stim therapy. Multimodal hot or cold therapy and high frequency M-Stim® combine to optimize gate control pain relief on contact, without the side effects of medications. Get patients moving quickly after surgery and throughout recovery. Give patients **POWER OVER PAIN:**

- Clinical research: 3.4x better than E-Stim
- Relieves pain on contact
- Simple, portable
- Clinician and patient satisfaction 100% guaranteed

Safe with Pacemakers

+

FSA/HSA Eligible
